

FIELD NAME	TYPE	SIZE	DESCRIPTION
id	Integer		Apeiron unique call record id
direction	String		“Inbound” or “outbound”. An inbound call is one that was originated on the PSTN and routed via Apeiron to the end user. Inbound calls can be originated from the PSTN calling an end user’s local telephone number (DID) or toll free number (TFN). An outbound call is one that originates from the customer and is sent through Apeiron for termination on the PSTN.
routing_number	String		The number string used for the routing of the call. This is also the basis for call rating and is the number that the termocn, termldata, termstate & termocn_type is based on.
billable_duration	Integer		The number of seconds used to calculate the charge for this record.
answer_time	MMDDYYYY		The date & timestamp in GMT when the call for this record was answered.
charge	Decimal		The charge in dollars for this record.
tax	Decimal		The tax in dollars collected for this record.
jurisdiction	String		Interstate, Intrastate, IntraLATA, Indeterminate
calltype	String		OutboundNADP, OutboundTFN, OutboundINTL, InboundNADP
orig_ocn	Integer - Five Digit numeric	5	The OCN that the originating NPA-NXX-X belongs to
orig_lata	Integer - Five Digit numeric	5	The LATA that the originating NPA-NXX-X belongs to
orig_state	Two Digit alpha numeric Text [A-Z] [A-Z]	2	The state that the originating NPA-NXX-X belongs to
orig_ocn_type	String		The ocn type of the orig_ocn
term_ocn	String - Four Digit alpha numeric	4	The ocn that the terminating NPA-NXX-X belongs to
term_lata	Integer - Five Digit numeric	5	The lata that the terminating NPA-NXX-X belongs to
term_state	Two Digit alpha numeric Text [A-Z] [A-Z]	2	The state that the terminating NPA-NXX-X belongs to
term_ocn_type	String		The ocn type of the term_ocn. “ILEC”, “CLEC”, “RBOC”, “PCS”, “Wireless”, etc...
source_hostname	Text		End user IP Address or FQDN used in the two way communications for this record.
orig_phone_number	Text - 10+ digit numeric	10	The calling number for this record. Also known as calling number or ANI.
term_phone_number	Text - 10+ digit numeric	10	The called number for this record.
trunk_group	Text - Six digit numeric	6	The trunk group that was used to complete the call for this record.
